Sacred Geometry Crystal Energy Grid

Flower of Life Sacred Geometry Crystal Energy Grid

- 250 x 250mm (10in x10in) engraved glass grid
- 26 crystals
- a solid wooden travel case lined with white velvet
- velvet pad in lid removes to serve as a base for your grid
- two-page instruction leaflet including crystal placement guide

A crystal grid is created by laying out crystals in a specific pattern (or grid); often made up of sacred shapes. When we lay crystals and gemstones in these shapes, they create a powerful energy vortex. This energy can be used for self-healing, healing others, self attunement, mediation, prayer, distance healing, affirmations, environment energising, space clearing, communication with our higher self, connection with the Ether (Universal Spirit) and earth energies. It is a supreme and powerful healing tool.

The grid engraving is based on the Flower of Life; an ancient and sacred geometric mandala used by many faiths in healing and prayer work throughout the ages. This shape is believed to depict the elemental forms of space and time. The Flower of Life is composed of evenly-spaced, overlapping circles, arranged so that they form a flower-like pattern. Each circle has a six-fold symmetry like a hexagon, i.e. the middle of each circle is intersected by six other circles of the same size or diameter. The oldest example of this shape found so far is from an Assyrian palace that dates from c. 645 BC. Previously, one found in The Temple of Osiris in Abydos, Egypt, had been thought to be the oldest. Other examples can be found in Phoenician, Middle Eastern, and European medieval art.

The five forms we know as the Platonic Solids are derived from the Flower of Life and it also contains the basis of Metatron's Cube. Other sacred formations can be recognized such as the Star of David, the Tree of Life and the five-pointed star, or Pentagram.

The use of glass as a medium allows for the crystals' energies to flow through clean and undisturbed while providing a conductor for your healing work. The metaphysical properties of glass are serenity and purity; providing a clear energy channel through which the crystal vibrations can flow.

This grid is the ideal size to use in any room and the custom made wooden case allows for safe carriage should you wish to transport it. When placed in a room the grid can be used to cleanse and raise the energy vibration, or when placed under your treatment or massage table it can assist and amplify the healing therapies for your clients. You can place photos, written affirmations or intentions under your grid for specific healing and energy work and by placing a bill underneath your grid (with the appropriate stones for manifesting financial abundance in your life), you can create a prosperity grid. The uses of this powerful healing tool are endless.

It comes with a two-page leaflet which contains information on crystal placement and layout plus suggestions for alternative crystals which can be used to meet other, specific aims (angelic contact, financial abundance, meditation, etc). Other specific crystal sets for use on this grid are available to purchase separately, or you can, of course, use your own selection.

The large 10x10" glass engraved grid comes complete with 26 stones as shown in the photo (below), plus a custom made, lined, bamboo/cherrywood composite wooden box with brass hinges for travel or safe keeping. The wooden box has been ethically sourced from sustainable means.
